

We're supporting National Careers Week

Wollumbin High School National Careers Week

National Careers Week is an initiative of the [Career Industry Council of Australia](#) and aims to celebrate careers, career development, career development services, and career development practitioners and to promote the economic, social and personal benefits of career development.

Career development is a process of managing learning, work and leisure to progress through life. It includes gaining and using the skills and knowledge needed to plan and make informed decisions about education, training, and work. Everyday decisions and priorities affect career development. Ultimately, career development is about much more than jobs – it is about how to live your life.

The objectives of National Careers Week are to:

- Develop community awareness of the concept, benefit, and value of career development.
- Raise aspirations, challenge stereotypes, and broaden horizons about careers.
- Highlight the need for ongoing reskilling and upskilling to support careers throughout life.
- Identify the changing nature of work and its impact on all Australians.
- Showcase industries and the career opportunities available in them.
- Provide opportunities to partner with key stakeholders.

Please see the pages following with an activity timetable which includes webinars, live streams, university information sessions and so much more. Each event is a linked directly to an event or the registration page for the event.

You will also see after the timetable a description of each event, JobJump information and more future careers events!

If you have any questions please contact Belinda Standage, Careers Adviser, at the school.

ENJOY EXPLORING THE WORLD OF CAREERS!!

360° Virtual Workplace

See what it's really like working in some of Australia's most exciting industries. Our Virtual Reality career advice platform lets you explore different workplaces in a completely new and exciting way. There is no need for a VR headset to access the experience, but if you happen to have an Oculus headset on hand, you can download an app on the Oculus app store by searching for 'Skillsroad Virtual Workplace'.

You can explore:

- ◇ Creative Industries
- ◇ Construction
- ◇ Hospitality
- ◇ Manufacturing
- ◇ Health Care

Australian Catholic University Entries and Pathways Webinar

Join us online to have all your questions about studying at ACU answered. Get helpful advice on how to apply, find out more about non-traditional pathways to uni, explore your postgraduate study options and hear from students about what life is really like at ACU.

Register for one, or all, of the following webinars to find the information you need about studying at ACU. If you can't make it to the event, you won't miss out, you can watch the recordings online.

<https://www.acu.edu.au/about-acu/events/2020/may/entry-and-pathways-to-acu-webinar>

Griffith University Online Chat

Are you a current high school student wanting to know more about your study options?

Our team of student advisers are available from **10 am - 12 pm each weekday** to chat with you about:

- subject pre-requisites and alternative pathways to University.
- degree information.
- how to apply.
- getting the most out of QTAC preferencing.
- studying overseas as part of your degree.
- studying online.

Your career in Space... right here, right now

Have you ever thought about a career in Space? Tim and Julia want to take you on a trek... to places that you may not have imagined. Your mission, should you choose to accept it, is to explore possible careers in Space.

When you hear the word "space", you are probably imagining astronauts and living on the International Space Station, and soon, travelling to the Moon and Mars. Yes! And for every astronaut and every space mission, there are thousands of jobs needed to be done right here on Earth too in one of the world's fastest-growing high-tech industries: space.

And in Australia, the space industry is starting to grow fast. The demand for people with STEAM skills, including researchers, engineers (aerospace, electronics, mechanical and computer), data analysts and astronomers, as well as communicators, project managers and even salespeople are - post COVID-19 - set to increase dramatically.

Please join Dr Tim Parsons and Julia Mitchell as they share with you some of the emerging career opportunities, and the kind of skills, and areas of study to pursue, and even projects to join if you think this might be the career for you.

Organisation Profile

The Space Industry Association of Australia (SIAA) is a nationwide organisation formed to promote the growth of the Australian space sector. By formulating national policies and strategies, SIAA speaks with authority and credibility on behalf of its members to accelerate the growth of the Australian space industry.

Early Childhood Teaching Careers with Future Tracks

Across Australia, the demand for bachelor qualified early childhood teachers (ECTs) is growing. Over the next five years, an additional 29,000 ECTs will be needed to meet the increased demand.

This demand is being driven by governments and families who are recognising the importance of professional early childhood teachers. We are seeing a swell of support for more roles, in more communities all across Australia.

For students, there has never been a better time to pursue a degree in early childhood teaching. Not only is early childhood teaching a rewarding career where you can make an impact, it also opens up a range of opportunities in roles such as teaching, managing a small business, developing government policy and everything in between.

Join Future Tracks for a webinar on the Future of Early Childhood Education.

The webinar will explore early childhood teaching as a career pathway, shedding light on the opportunities available to students while studying at university and beyond.

We'll also discuss the unique benefits and advantages offered by Future Tracks designed to supercharge their early childhood teaching careers, including:

- Paid work while you complete your degree
- Access to an experienced early childhood mentor
- Leadership development.

In a time of uncertainty, early childhood teaching is a future proof career path for students who want a job with flexibility, creativity a chance to make a real impact by shaping the next generation of thinkers and leaders.

Future Tracks is a new social enterprise designed to attract and support the next generation of early childhood teachers. Our innovative program brings together university experts, experienced leaders in the early childhood sector, and students studying undergraduate degrees in early childhood teaching.

Make Your Move – International Freight, Transport & Logistics

The International Freight, Transport and Logistics industry in Australia has recently been defined by the Federal Government during the COVID-19 crisis as an "Essential Service". Why is this industry so important and essential now to the Australian economic recovery and the health of residents or tourists and how does this impact and highlight career options and pathway opportunities for students? This webinar aims to inform career advisers, students and parents about the size of the industry, the diversity of roles, the interconnectivity to the global economy and the variety of pathways into the industry.

If you are a student with some of the below attributes then the International Freight, Transport & Logistics industry may be worth further consideration as a career choice for the future

- Multicultural exposure
- Travel experiences
- Part time work history
- Global geography interest
- Teamwork & respect for others
- Time management & motivation
- Concern for the local, global environment
- Technology understanding
- Attention to detail & problem solving

"Make Your Move" is an educational program jointly developed in 2018 by five international freight, transport and logistics industry associations to create awareness about the industry to career advisers, students and parents.

The five industry associations are:

Australian Federation of International Freight Forwarders, Customs Brokers & Forwarders Council of Australia, Export Council of Australia, Shipping Australia and Conference of Asia Pacific Express Carriers

Year13 Careers expo

The Year13 Expo lets you find a career you're genuinely passionate about without even having to get out of bed. Over the course of the week, you'll hear from experts, chat with influencers and explore all of your post-school options at our digital careers expo that you can access from anywhere you have internet.

From May 18-22, you'll be able to explore exhibits from a host of different universities, TAFEs, colleges, employers and gap year providers. But you'll also get the opportunity to hear from some amazing career folk who are nailing it in their industry. Through a series of live chats, [webinars](#) and online 'booths', the Year13 Expo will help you figure out what it is you're passionate about and what you need to do in order to get there.

Australia's next generation shipbuilding industry

Australia is about to embark on some of the most technologically advanced programs in the world in our Naval Shipbuilding Industry.

Experiences on these programs will be world-class and create endless opportunities.

The Naval Shipbuilding College is an unprecedented approach to ensuring Australia and industry have the workforce required to sustain a sovereign shipbuilding industry. Thousands of skilled and professional people are required, including trades, program and project managers, purchasing, quality, designers, quality, engineering, logistics and professional support roles.

We have established a training and education provider network in every state and territory of Australia and are endorsing courses at TAFE and university partners to ensure graduates leave with the skills required by industry and contribute to a sustainable pipeline of appropriately skilled workers.

Through the Workforce Register, the Naval Shipbuilding College undertakes comprehensive candidate screening and provides a transitional career pathway for our pool of skilled employment candidates ensuring they are 'job ready' for their chosen career in the Australian shipbuilding industry. We also provide weekly updates on current employment opportunities and tailored advice on appropriate training and education pathways that can lead to rewarding careers within the Enterprise.

Find out how the Naval Shipbuilding College can help you on the path to a long term, innovative and exciting career.

Big Day In Virtual Seminar

Dr Tim Kitchen, Adobe

'Skills to Thrive in the Future'

To be competitive in the current and future world of work, it is important to develop a range of what are commonly referred to as 'soft skills' and 'hard skills'. Most education systems are good at encouraging students to develop hard skills because they are easy to measure and test. In many cases this is at the detriment of so called 'soft skills' that are hard to measure yet so important in the workplace of today and tomorrow, especially in the light of all the COVID-19 disruptions. Both LinkedIn/Microsoft and the World Economic Forum have released some interesting research that rates the most important skills required to thrive in the future and they are anything but 'soft'. During this presentation, Dr Tim Kitchen from Adobe will share his thoughts on this topic following his nearly 30 years as an educator and currently as Adobe's Senior Education specialist for Asia Pacific

Genevieve Ash, Technology One

'New School Cool : The Fun & Creative Side of Working For A Tech Firm'

Genevieve is a Graduate Business Analyst within TechnologyOne's Software as a Service team. She is passionate about using technology to simplify & solve complex business problems. On any given day, her work can range from deep business process maps to User Experience design

Wollumbin High School National Careers Week

Beyond school: Do you know where your students need to go?

For many students, navigating a post-school pathway can be an overwhelming task. We have resources to help people:

- compare and decide on a course
- access an Australian Government loan, such as HECS-HELP
- find out what financial assistance is available.

We'll chat about the Australian Government products and services available to help equip students as they begin their tertiary pathway.

We want students to be empowered to make the right decisions.

We'll share products and tools developed by the Department of Education, Skills and Employment (DESE), the Australian Taxation Office (ATO) and Services Australia.

These include DESE's Beyond School Study Guide and Course Seeker, ComparED and Study Assist websites. We'll also talk about Services Australia's Payment and Service Finder and School Leavers Resource Kit.

Why Career Adaptability is important for

Athletes

An athletic career is characterized by different phases and transitions that demand relevant decision-making strategies to enable the athlete to successfully continue with sport and education/work.

Especially the junior-to-senior-transition and the transition out of elite sport are known to be crucial turning phases for athletes. These periods are often characterized by uncertainty, psychological distress, and a potential loss of identity.

To constantly adapt to new circumstances in relation to their athletic and educational/vocational career, athletes need relevant coping resources to overcome the specific demands each transition encompasses.

Furthermore, athletes are part of a wider environment that involves different key persons such as parents, coaches, teachers, and friends. These persons can play a significant role in supporting the development of the athlete's career adaptability throughout their career.

In Andreas' presentation, he will use the Holistic Athletic Career Model (which highlights that athletes develop in the sporting, psychological, psychosocial, and academic domain) and provide some examples of his own dual career development in connection with Savickas (2013) framework of career adaptability.

Focusing on the critical transition phases, he will provide different suggestions of how athletes and career counsellors can work with the career adaptability dimensions (i.e., concern, control, curiosity, confidence) that can enable athletes to be successful in sport and life beyond.

Presenter - Andreas Küttel - Denmark

Dial in Defence Careers Information Session

Consider a career like no other and represent Australia with pride in the Navy, Army or Air Force. Dial into our upcoming info session from home on Thursday, May 21, 6:00pm to hear from current serving members and find out if a career in the Australian Defence Force is for you?

How does it work?

Step 1 - Register to attend below before midday Thursday, May 21. Please note: Spaces are limited, as we can only take a total of 40 lines at a time. Consider using one device to dial in, registering more than one person will stop others from having the opportunity to also join the call.

Step 2 - If successful in gaining a place on the dial-in session, Defence Force Recruiting will contact you with teleconference phone numbers and further information.

Step 3 - Dial in from home at 5.55pm on Thursday, May 21 to participate in the Dial In Information Session.

MEET YOUR FUTURE

InspirED

Inspired.edu.au | 1300 677 336 | info@inspired.edu.au

www.jobjump.com.au

Dear Student,

Your future Career is here!

We would like you to register on JobJump so you will receive News on the Careers you like sent to your home email address. It may only take one bit of news to unlock and inspire you towards your future career. Plus you will be able to use all parts of the JobJump website to help plan and achieve your Career dreams. It is there to help through to an extra year after your Year 12.

To register with JobJump, go to the front screen of the website at www.jobjump.com.au Click on **I'm New**. On the new screen, enter into the first white box the first letters of your school's name and **when the full name appears just below in blue**, click on your blue school name and it will enter automatically into the first white box.

In the second white box, enter your school password which is: **woll** and click Continue. You then need to enter a few details and set your Personal Password. (Min 6 characters). So, whenever you then come back to Login to JobJump, all you will then need is your email address and Personal Password.

Two things to remember:

1. If you can't find the career from the list offered that suits you, select a career which is in the field you like. For example, you may like the field of Tourism and the idea of having a career in the Tourism industry is not a bad idea. In the listing select 'Travel Agent' because all Tourism careers news will come to you.
2. When you register, remember you can select as many careers that you like from the listing.

**Watch the tour of JobJump in the brief video entitled 'Learn JobJump fully in minutes'.
Go the bottom middle part of the Home page.**

Once you have registered, you can also use all parts of the website to enjoy all of the following:

- CareerVR
- eWork Experience
- Year 10 subject selection advice across more than 100 careers.
- Writing letters, resumes, what to say to an employer, where to find your future employer.
- A comprehensive digital ATAR and University Course sorter** that works hand in hand with the UAC Handbook making life now a breeze for you to search for your chosen courses.
- Job vacancies for over 100 options based on your school location.
- Bonus points,
- Overseas Exchange in your University degree**
- Accommodation across all Universities in NSW and their direct links.
- Earnings across 300 careers.
- Resume Builder for multiple career options.
- Find my Career quizzes.
- Hobby projects across 100 careers to inspire and engage students in their career.
- Interactive yearly calendar across all news items which can be personalised to your careers of interest.
- Undergraduate scholarship sorter across all NSW Universities.**
- Universities Open Days listing and links.**
- Videos across more than 100 careers.
- Gap Year and Volunteering opportunities.
- Alternative entry to University sorter and links across all NSW Universities.
- Interstate and overseas University admissions centres' links.**
- Work Experience documentation.... and much more.

We trust you will enjoy using www.jobjump.com.au

Watch these 2 brief videos to know how to Register, Login and use the many JobJump benefits for your Career.
